About *Prison Tycoon: Under New Management*

New management - new rules! Build your own prison from the ground up, hire guards and other staff, secure government grants - and welcome the first inmates!

Rehabilitate them through the funniest therapies ever, so that they'd return to normal life and never repeat their mistakes. Zero gravity room, VR treatment or dancing therapy? Just to name a few!

Competitors never sleep! Keep your prison nice and clean, efficient and profitable to make everyone happy: the inmates in good conditions, and the city government approving of your facility. And beware of nature: who said environmental events aren't a thing in Prison Tycoon: Under New Management? Each location to build your prison comes with a unique set of perks and challenges.

Anything is possible in Prison Tycoon: Under New Management, except for getting bored - each prisoners' behavior is unique and you never know what they'll do next!

Features:

 5 environments to build the prison in: each with perks and challenges. Choose between Desert, Tundra, Tropical, Taiga and Swamp.

 Prisoners with their own minds: the sophisticated AI ensures their behavior is never predictable!

 Your own blueprints: design every room, path, checkpoint, and cell block.

 Hire the best, fire the rest: evaluate and hire staff for 12 roles to serve in running and maintaining your prison.

 Secure and Protect: maintain a secure facility using guards, cameras, watchtowers, and checkpoints.

 **Rehabilitate and Release:** evaluate prisoners, then provide the therapies that they need to be released, from the zero gravity room to VR therapy.
